  - Auto 2-up printing
- Print to any configured IPS

## POWERFUL PRODUCTION

- Up to 999 copies
- Broad file format support
- Schedule by date & time
  - Unlimited file selection
  - Unlimited site license
  - Batch file conversion
  - Save/recall print sets

Requester:	BRoberts
Job Number:	2009-002
Description:	Billable
Requested Time:	15.21
Date:	4/8/2009

## UNIFIED ACCOUNTING

- Secure, centralized data storage & access
  - Auto record user, job #, & description
- User & password protection
- Up to 30,000 individual user

#### REMOTE CONNECTIVITY

- Download images from IPS mailboxes
- Print from IPS mailbox
- Transmit print job to FTP location

#### PREFLIGHT TOOLS

- Accurate, one click viewing
- Advanced stamping preview
- Complete image adjustment controls

Manage remote print queue

Advanced folding & finishing options

Easy to use automated installation & setup

#### INTEGRATED PRINT DRIVER

- Microsoft® & Citrix® certified
- AutoCAD® print driver
- Integrated with Revit®
- Print directly from applications
- Fully optimized output

# Touchscreen Printing

KIP systems eliminate the need for additional PC hardware by printing documents directly from the touchscreen software. Scanned images can be easily recalled and printed from the IPS mailbox storage or may be concurrently printed during scan to file operations. Integrated support for removable media such as standard USB drives provides the ability to securely print documents directly from a range of media formats.

## CONCURRENT PRINT SCAN TO FILE

- Scan images to file while printing
- Select number of copies
- Select output media

## FILE TO PRINT

- Scan mailboxes
- Print from removable media
- Print from network locations
- View images prior to printing
  - Apply folding preferences
  - Save/recall print jobs

## MAILBOX QUICK PRINTING

- View images from local mailbox
  - Set number of copies
- Standard enlargement / reduction schemes
  - Collation options
- Save/recall print jobs

Job Number	User Name	Job Description
1001	John Doe	Print
